IMPORTANT DATES
September 10, 2012: Opening of online abstract submission
December 17, 2012: Abstract submission deadline
March 15, 2013: Acceptance notification
April 30, 2013: Deadline for Early bird registration

REGISTRATION FEES
The registration fees include the proceedings, attendance to all conferences, coffee breaks, lunches, cocktails and gala dinner.

INDUSTRIAL EXHIBITION (equipment, products and services of interest for the community) is possible. If you are interested, please contact the organizing committee.

FRPM 2013 will be held in Lille, in the north of France, a favorable location situated at the crossroad of Paris, London and Brussels.

Motorways, high-speed rail network and an international airport (70 destinations) make Lille easily accessible. The city is very near many European capitals. Direct connection from the airports to Lille’s station: Paris-Charles de Gaulle Airport (50min, 22 TGVs daily), Paris (1h, 26 TGVs daily), London (1h, 10 Eurostar daily), Brussels (33min, 14 TGVs daily), Amsterdam (2h).

LOCAL ORGANIZING COMMITTEE
Dr. Mathilde Casetta, USTL
Dr. Gaëlle Fontaine, ENSCL
Dr. Stéphane Giraud, ENSAIT
Dr. Fabienne Samyn, ENSCL

Fire Retardancy and Protection of Materials Conference (FRPM) is one of the major European Conference in the field of Flame Retardancy of Materials. This conference allows basic and applied researchers, industrial producers, end users and regulators, to discuss the latest developments in the field of fire retardant polymer materials and fire protection.

The numerous interdisciplinary aspects involved in fire retardant materials and in fire protection will be discussed during the conference. Fire retardant performance required by the relevant industrial applications such as transportation, building, electrical and electronics sectors, will be debated regarding plastics, rubbers, thermosets, composites and textiles.

The Conference is organized in turn by European recognized Research Groups. After Alessandria (Italy, 2011), Poznan (Poland, 2009) and Bolton (UK, 2007), its 2013 edition will be organized in Lille from 30th of June up to 4th of July 2013 by the group 'Reaction and Resistance to Fire' of UMET Laboratory (ENSOL) in collaboration with ENSAIT.

The topics of the Conference cover all the issues involved in fire retardant polymers and fire protection, with particular emphasis on the new results obtained since the 2011 Conference in Alessandria. Plenary and keynote lectures from most active and qualified international speakers will introduce the topics sessions.

TOPICS (oral and poster sessions)
- Fundamental aspects in fire behavior and in flame retardancy
- Fire retardancy of polymers and bio-based polymers
- Fire behaviour of composite materials
- Fire retardancy of fibers and textiles
- Nanoscience and synergy
- Fire protection and protective coatings
- Industrial applications
- Modeling and simulation in fire
- Regulation, standardization and fire testing
- Environmental aspects, fire toxicity and smoke
